DETAILED ACTION

1. This Office Action is responsive to application filed on November 1, 2001.
2. Claims 1-27 have been examined.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 17-23 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Claims 17-23 are considered to be software and are not considered to be patentable subject matter. These claims include means plus function clauses which are interpreted in accordance with applicant's specification to be software modules which solve algorithmic problems in the abstract which is not patentable subject matter. Thus, the claims given their broadest reasonable interpretation consistent with the specification do not define statutory subject matter; therefore, claims 17-23 are impermissibly abstract under 35 U.S.C. 101 doctrine.

Allowable Subject Matter

Claims 1-16 and 24-26 are allowed.
